Response Efforts - COVID 19

Allowable Activities for Remaining Funds. Consistent with PED’s priority to close the digital divide, LEAs must explain how they are using ARP ESSER funds to ensure access to digital devices and other technology for at-risk students and teachers who need them, as well as Internet technology support services. Digital devices must be capable of meeting at-risk students’ remote learning needs and teachers’ remote teaching needs. Digital devices must allow for the reliable download and upload of assignments, streaming of instructional videos, and participation in individual and group video conferencing. In the category below “purchasing instructional technology,” please include in the narrative an explanation of how the LEA is meeting this priority and a dollar amount that will be used for these purposes.

Interim Final Requirement: Under this requirement, an SEA must engage in meaningful consultation with various stakeholder groups on its ARP ESSER plan and give the public an opportunity to provide input on the development of the plan and take such input into account. Specifically, an SEA is required to consult with students; families; Tribes (if applicable); civil rights organizations (including disability rights organizations); school and district administrators (including special education administrators); superintendents; charter school leaders (if applicable); teachers, principals, school leaders, other educators, school staff, and their unions; and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students in the development of its ARP ESSER plan. Under the requirement, an SEA must also provide the public with the opportunity to provide input in the development of the plan and take such input into account.

*Meaningful consultation means each stakeholder group was afforded multiple opportunities to provide feedback on the LEAs ARP application prior to the application being submitted. Pursuant to 2 C.F.R. § 200.332(a)(5), all sub recipients as identified in Exhibit A, attached to this sub award, must permit PED and auditors access to records and financial statements as necessary.

Many of students do not have their own laptops or access to the internet, which is needed for both learning in class and at home for class. These barriers exist because of the high costs associated with laptops, programs and applications to be used with laptops, service plans, and repairs. We also have families that live in remote areas where no to limited cell or internet service is available as well. Therefore, SDIS, like last year, will continue to purchase and issue laptops and other technology needed for learning, including cost for service like hotspots and mofi satellites, which are very costly. In addition, the funds will be used to address the barrier of</p>

students not having access to a mental health support professional due to issues area hospitals are facing with staffing shortages and having to focus their staff and resources on the treatment of COVID patients and emergency room treatment. SDIS does not have funds to pay for a school counselor; so it would help our students for the school to help in making mental health support services available. The input of staff, in particular of the teachers, will be elicited in the development of the mental health support services, which will help teachers support when these services are provided during the school day. The staff, in particular the teachers, have voiced the need for student mental health support services. Therefore, these funds will be used to pay these costs for the benefit our students.
